OUTLINE

- Why we (CECOM) use Power Log
- Reload issue
- The Power Log Team
- In Process Reviews and Submissions
- Power Log Usability

Why We Use Power Log

- Ensure accurate data is being processed
- Ease of use
- Speed

Reload Issue

- LMP edits
- Reports and runs
- Automation of changes

The Power Log Team

- Enablers (in a good way)
- Excellent teaching
- Grants wishes
- Well written guidebooks

In Process Reviews and Submissions

- Use of 080 run – bill of materials (BOM)
- Use of 036 report – provisioning data elements
- Use of 030 – Repair Parts and Special Tools List (RPSTL)

Power Log Usability

- Free for everyone to use
- Updates sent directly to user
- Excellent help desk
- Very friendly team
- Great support
